## MARTIN TOLD THEM HOW

Gave Nebraska Pointers About a State Historical Society.

George W. Martin, secretary of the state historical society, has returned from a trip to Lincoln, Neb., where he went to tell the historical society of Nebraska how to organize on the same basis that Kansas has organized its historical society.

"They are behind us up there," said Mr. Martin today, "and they have a very creditable collection. Their historical society is sort of an adjunct of the state university, and a strong effort is being made to pry it loose from that institution. I said to those people, 'You want to get a building of your own, right close to the capitol where the politicians will come in and see you, and where your department can stand on its own bottom.'"

"There was one university professor up there who made much in which he said that they ought to keep the society at the university, because it requires academic training to run a historical society right. I went after him. I told the incident of the Pike celebration, when at a certain hour of the day, 500,000 school children in Kansas were all holding exercises commemorating the raising of the American flag at Republic City. I told them that that was the kind of thing they ought to have to back a historical society, not academic training."

"You get the people of the state interested in historical matters, and you won't need anything else to make your society go. Make everything open to the public; invite the people in to see your stuff; you can't have too many people. The people pay your bills, and they have a right to know what you're doing."

"I told those people how we marked the Santa Fe trail through Kansas, and urged them to get the legislature to give them \$2,000 to mark the old Oregon trail. I told the mto interest the politicians, and to hit every legislature for a few thousand dollars for some historic purpose. 'Don't let a legislature get out of town,' I told them, 'without giving the society some money for pushing forward the historical work of the state.'"

"I believe that they are going to win out up there in their efforts to make a strong department out of the historical society, but at present it is just like Kansas was fifteen or twenty years ago; the historical society was tucked away in the obscure corners and didn't amount to much."

## THE MIKADO'S CREED.

Head of Chicago Schools Recommends It for Adoption.

Chicago, Oct. 25.—Japan is to have a unique revenge for any real or fancied slights it may have received at the hands of American school authorities if President Otto Schneider, president of the Chicago school board, has his way. President Schneider wants to adopt the Japanese imperial rescript on education as the standard of ethical and moral teaching in the Chicago public schools.

A copy of the rescript, in a new translation recently made by a board of Japanese scholars, reached the Chicago school board from the Japanese government at Tokio. The rescript, which is a sort of an educational creed, was issued some thirty years ago by the emperor, and has been used since that time as a formula for ethical teaching in the Japanese schools. In part it reads:

"Be filial to your parents, affectionate to your brothers and sisters; as husbands and wives be harmonious, as friends true, bear yourselves in modesty and moderation, extend your benevolence to all, pursue learning and cultivate arts, and thereby develop intellectual faculties and perfect moral powers. Always advance your public good and promote common interests; always respect the constitution and preserve the laws; should emergency arise, offer yourselves courageously to the state; maintain the imperial throne, coeval with heaven and earth."

## M'CAKE SIGNS IT.

Former City Engineer on Grand Jury Petitions—Wants Investigation.

The seventh name on the list which will be presented to Judge A. J. Dudgeon, clerk of the district court, asking that a grand jury be called to investigate the sewer and other scandals is that of James McCabe, former city engineer. "As soon as I learned that a grand jury was to be asked for," said Mr. McCabe, "I came to the city from my farm for I would have liked very much to have been the first man to sign such a request. Every few days Drenning breaks out in a new place and makes a lot of charges against me. As I figure it at this time I must pay close to a million dollars to the good if half of the charges made by the city attorney are true."

"Drenning made charges indiscriminately, one day one thing and the next something else, but he has made no attempt to remedy the evils which he claims exist. If half the charges are true, the public health by this foundation it is time that he takes some action, if they are not he should be suppressed as an alarmist and flourish."

"If his assertions are true he should do his duty and if he does not know what it is any school boy can tell him. His constant hue and cry of fraud which has been going on for months has resulted in nothing excepting that he has managed to keep his name constantly before the public. If he had been more sincere, if Drenning has any evidence which will implicate me in any way or substantiate the charges which he has made from time to time a grand jury will give him a chance to produce it and that is what the citizens of Topeka as well as myself would like to have him do."

**Western Postmasters Named.**  
Washington, Oct. 25.—These postmasters have been appointed: Kansas—Helen, Reno county, William A. Waterbury, vice E. C. Erwin, resigned; Rush Center, Rush county, Frederick R. Smith, vice M. L. Hallett, resigned.

**Kalamazoo—Lenora.** Dewey county, John S. Langley, vice R. H. Manning, resigned; Lovell, Logan county, Hugh McClure, vice W. Kilby, resigned.

**Water Turned In.**  
Sterling, Ill., Oct. 25.—Yesterday afternoon T. J. Hildebrand turned a gate which thereupon raised a gate which water to flow through the Illinois Mississippi canal. This marked the completion of work on the \$7,500,000 government undertaking which was started by Mr. Hildebrand 25 years ago.
